

# CONSTRUCTION ALERT

## Canoa / I-19 Interchange Roundabout Construction Project

The Canoa Exit is being completely redesigned. Construction began on June 17, 2008. The project consists of improvements to Canoa Road westbound from I -19, and construction of a [roundabout](#) and associated improvements within the ADOT right-of-way, west of I -19.

\*Work Zone Safety\*

Approach this exit with extreme caution whether you are getting off Rt 19 or heading towards this exit from Frontage Road. The intersection and traffic patterns are completely different and it is imperative that you are aware and obey all traffic control devices.

It will take approximately one year to complete the project. In the event of mechanical failure or inclement weather, the construction schedule will be subject to change.

More information about changes to East and West Frontage Roads and the complete project can be found on the following website: <http://www.roadprojects.pima.gov/I19Frontage/index.htm>
